THE CONCERT.

On Friday evening last M'lle Burke and Messra Blaisdell and Erfurth, of Limestone Springs Female High School, executed their announced programme at Palmetto Hall, in presence of a very fair audience of unr citizens, who were generally pleased with the execution of these artistes.

As our concert friends are not professionals, course we cannot attempt a severe critic'sm of their performances, however well they might abide the lest. Besides, starting late from the Springs, tracolling through a hot sun over twenty one miles of road, and arriving barely in time to dress and rush before their audience, it would be very wonderful indeed if they equalled even their ordinary efforts. And yet they made a decided hit, gave great satisfaction, and were encored in several pieces.

We are pleased to learn that we may expect another of these entertainments at no distant day, and we are quite sure that they will meet a still more cordial reception.

We also hear it intimated that Miss Ellen Reman designs favoring Spartanburg with another visit and concert shortly. Her welcome is always ready, and we promise her a bumper, come when

SOUTH CAROLINA COLLEGE.

Our Columbia exchanges furnish us all the in telligence we have as to the action of the Board of Trustees of the South Carolina College at the late "occasional meeting"-the necessity for which grew out of College difficulties that led to the resignation of President McCay and misunderstand ings between him and the Faculty. The Trustees heard statements from both parties, and by formal resolution express the opinion that there exists no issue of veracity between President and Professors. and that he stands exouerated from all imputation upon his character, and retains their confidence in his parity and integrity. The resolution relative to the Professors is less broad-merely saying that the "Board perceives no ground for any charge affecting the honor or integrity of any one of them The Delphie phraseology leaves room for an inference stronger than the affirmation; but we cannot believe that that was the design of the Board. To froe themselves from embarrassment in legislating for the College, the remaining members of the two nations of the present ponderous and discorfaculty were requested to resign, with which request they promptly complied. It is the design of the Board to reorganize the institution in its faculty and curriculum. To this end a committee was detailed to report to the Board in November

This is pretty much the sum of what is made public; but there are other matters on the minutes of the Board, or on their table, deeply affecting the future prosperity of this institution. The students are in a ferment. They also have held meetings, spassed resolutions, and come to conclusions as well as their governors. The dismissed professors have the sympathies of many of the students, and that sympathy is manifested in the determination of many of them not to return, and in serenading La- steadily improving. Their statement will by a little energy on the part of her citizens, will beprobably find its way to the public in pamphlet form, when further light may be thrown upon the transactions which have summarily arrested the exercises of the College, and left it almost without organization.

PROF. CARLISLE.

The Trustees of the South Carolina College, at their late meeting, chose Rev. Whitefoord Smith, D. D., of Wofford College, Professor of Sacred Literature. If Dr. Smith accepts, this action will remove a valuable professor from our college.

A writer in the Columbia papers, signing himself A Graduate," proposes to the Trustees the elec- his office rtion of Prof. Carlisle to the chair of mathematics in the South Carolina College. His claims and qualiflications are thus stated by "Graduate."

"Professor Carlisle is a native of South Carolina -a graduate of the South Carolida College of the Class of 1844, of which he received the second honor, Maj. Gen. P. H. Nelson, of Sumter, taking the first. Throughout his collegiate course he was the first. Throughout his collegiate course he was distinguished for his mathematical ability. For a few years after his graduotion, and before his election to the Wofford College, he devoted himself to deaching, in which time he acquired an enviable repuration. Since his election to the Wofford Col-dege he has given ample evidence of the wi-dom-displayed in his election by the Trustees of that institution. Besides his unusal mathematical ability the is one of the most gifted speakers in our State And what is of great moment in addition, he not only sustains now, but has sustained for a number years, running back anterior to his collegiate voted christian. For thirteen years has he been giving daily proof as well of his devotion to his science as of his success in teaching the same."

OBITUARIES.

We clip the following sensible article from the Charleston Christian Advocate, and commend the advice to the adoption of all who any have to write

obituary noticea: "A PLEA FOR COMPASSION.-Ilad we not cut tailed the obsturies on our fourth page fully one half, they would have occupied six instead of three columns of this week's paper. Will writers of obituaries have no mercy on any body? Why im-powe upon us the painful task of cutting away so much that we cannot find room for, without turuing our fourth page into a grave yard, and garnishing it with tomb atones? A half dozen printed lines is enough for the largest portion of those whose deaths we meation. The simplest facts only should be stated—those which will interest everybody, tranger as well as friend. We must again beg writers in this department to be brief. It will save us a deal of trouble, and them some unnecessary writing, and perhaps disappointment.

[South Carolinian,

Colonel Pickens,-It was stated a few days ago by one of our cotemporaries that Gol. Pickens had been tendered in a most handsome manner the mission to Russia. This is the third mission in the gift of the Government, and in the wide field which t opens for usefulness may be considered the first Our relations with Russia are of a most amicable haracter; it is a large and growing country, with an increasing population and influence in Europe, and more particularly in Asia through her there is a magnificent field open for extending American commerce. Of this our government is folly aware, and the selection of Col. Pickens for the position, and upon the complimentary terms of which we have been in ormed, is certainly as high a compli-ment as the administration could have paid him and

through him the State. We see it stated that Col. Pickens' friends intend orging his claims for the United States Senate. Should these do so and their efforts prove successful, every South Carolinian will feel assured of the interests of the State being fully and addy sustained through him. Col. Pickens took a very high potion in the House of Representatives, by his able discussion of the tariff question particularly. His speech before the Democratic State Convention in dumbia last spring bore indisputable evidence the none of the information concerning its history with which he had stored his mind. He belongs to our practical, conciliatory school of statesmen, willing to consult and deliberate freely and upon terms of equality with the Democratic representatives from other States; this too will give him additional influence .- Winnsboro Register.

The Empress was so well pleased with the exhibition that she presented each of the belle ragazze with five Napoleons to buy a new dress."

SOMETHING IN THE ATMOSPHERE.-The editor of number of the guests of Charleston during the las writes the following in a lotter to his paper: We left the city of Augusta about nine o'clock and passed over the Savannah river into the farfamed State of South Carolina. When fairly over the river, I felt a sensible change come over the spirit of my dream. I felt remarkably chivalthat if a Yankee had come along about that time and crooked his finger at me, I would have —well, I don't say what I would have done, but he would have been "mighty apt" to have heard something "drap." Don't know what caused the feeling te South Carolina atmosphere perhaps.

CHANCELLOR WARDLAW.-We regret to learn through the annexed paragraph that this distinguished gentleman has been compelled to suspend his attendance at Court in Charleston in consequence of sickness; not regarded scrious, however, we are

THE GREAT RESTORATIVE. FEVER AND AGUE CURED BY DR. M'LANE'S LIVER PILLS.

Mr. Jonathan Honghman, of West Union Park County, Illinois, writes to the proprietors, Fleming Bros., of Pittsburg, that he had suffered greatly from a severe and protracted attack of Fever and Ague, and was completely restored to health by the use of the Liver Pills alone. These Pills unquestionably possess great tonic properties, and can be taken with decided advantage for many diseases requiring invigorating remedies; but the Liver Pills stand pre-eminent as a means of restoring a disorganized Liver to healthy action; hence the great celebrity they have attained. The nunerous formidable diseases arising from a diseased Liver, which so long baffled the skill of the most eminent physicians of the United States, are now rendered easy of cure, thanks to the study and perseverance of the distinguished physician whose name this great medicine bears-a name which will descend to posterity as one deserving of gratitude. This invaluable medicine should always be kept within reach; and on the appearance of the earliest symptoms of diseased Lizer, it can be safely and usefully administered.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS., of PITTS-BURGH, PA. There are other Pills purporting to be Liver Pills now before to public. Dr. M'Lane's genuine Liver Pills, also his celebrated Vermitage, can now be had at all respectable drug stores. None genuine without the signature of
